Job Description & Requirements:

Location:
Gurugram (Onsite)
We are looking for a
Software Engineer
with
6–10 years of experience
to join our Regulatory Reporting team. The ideal candidate will have strong expertise in developing enterprise applications and a passion for building scalable, high-quality solutions.

Key Responsibilities

* Design, develop, and maintain applications using C# and .NET technologies.
* Collaborate with business and technology stakeholders to deliver solutions.
* Develop APIs, microservices, and event-driven integrations.
* Support production systems and drive continuous improvements.
* Participate in solution design, code reviews, and Agile delivery processes.

Required Skills

* 6–10 years of software development experience.
* Strong hands-on experience with C#, .NET/.NET Core, and SQL Server.
* Experience with REST APIs, microservices, and Kafka.
* Knowledge of Azure Cloud and CI/CD practices.
* Strong analytical and problem-solving skills.

Preferred

* Experience in financial services, capital markets, or regulatory reporting.
* Exposure to cloud-native architectures and DevOps practices.

Join us in building modern, scalable platforms that support critical regulatory reporting and business processes.
